

Terminal Tower
CLEVELAND, OH

Coon Restoration & Sealants, Inc. is an award-winning masonry restoration firm that specializes in tax incentive historic preservation projects, historic and modern-day masonry repairs (brick, stone and terra cotta), restoration and conservation of historic woodwork, concrete restoration, joint sealant applications and masonry coatings. Whether your project is hanging on a ledge 600-feet in the air or one requiring a multifaceted approach to developing a total building envelope solution, our dedicated team of knowledgeable experts is nothing short of top-of-the-line.

As a specialty contractor, Coon Restoration has the necessary tools to solve virtually any access challenge. With our fleet of transportable lifts and innovative mast climbers, we can access your building exterior's problem areas safely and efficiently. Whether your responsibilities include overseeing the maintenance of a hospital campus, historic church, courthouse facility, educational institution or municipal building, Coon Restoration is nationally-renowned for excellence and ready to be an integral part of your project.
